

John Vetter
Library Window Display Proposal

Put posters into the Mount Royal facing windows of bunting. They could be simple MICA branding, way finding for the library, or promotional for workshops, shows, or events.

- Posters could announce shows happening in Bunting/workshops in the library
- Below is an example from the Louisiana Museum announcing a literature event
- Having posters for events rotate brings fresh visuals to the environment that will continue to get noticed.
- Monthly posters could bring more involvement in the library from designers
